A.D. 1905.

[4th August 1905.]

WHEREAS under and in pursuance of the London Government Act 1899 (in this Act referred to as "the Act of 1899") and of the borough of Woolwich Order in Council 1900 the area of the parliamentary borough of Woolwich was (subject to the adjustment of boundaries mentioned in the said Order) formed into a metropolitan borough (in this Act called "the borough") and the mayor aldermen and councillors of the metropolitan borough of Woolwich (in this Act called "the Council") were incorporated as the Council for the borough:

And whereas the area of the said borough comprises and includes the parishes of Woolwich Plumstead and Eltham:

And whereas prior to the formation of the borough the parish of Woolwich was an urban sanitary district within the meaning of the Public Health Acts under the management and control of the Local Board of Health for Woolwich and many of the provisions of those Acts (including provisions relating to drains and sewers) were in force within the said parish:

And whereas by section 19 of the Act of 1899 it was enacted that a scheme under that Act should provide for placing Woolwich

A.D. 1905. — under the general law applying to metropolitan boroughs and for the repeal of the application thereto of the provisions of the Public Health Acts and other enactments not applying to London and for the application thereto of the Metropolis Management Acts 1855 to 1893 and other enactments applying to London :

And whereas under and by virtue of various Orders in Council and schemes made in pursuance of the Act of 1899 the borough has in some respects been placed under the general law relating to metropolitan boroughs but the parish of Woolwich part thereof is still as regards the law affecting drains and sewers in a different position from the other metropolitan boroughs and it is expedient that provision should be made as contained in this Act for assimilating the law applicable to the said parish in respect of the said matters to that applicable to the remainder of the borough and to other metropolitan boroughs :

And whereas it is expedient that the Council should be authorised to carry out the widening of the portion in this Act mentioned of Wickham Lane in the urban district of Bexley in the county of Kent along which the boundary of the borough runs and that provision should be made as contained in this Act for contributions by the London County Council and the Kent County Council towards the cost of the said widening :

And whereas the Council are authorised to supply and are supplying electricity for public and private purposes in the borough and have erected a generating station on certain lands within the borough of which they hold leases for unexpired terms of thirty-six and a quarter years respectively and it is expedient that they should be empowered to acquire the freehold of the said lands and of certain other lands adjoining thereto for the purposes of the said generating station and of wharves stores depôts and other purposes of the council :

And whereas plans and sections showing the lines and levels of the said widening of Wickham Lane and plans of the lands by this Act authorised to be acquired and a book of reference relating to those plans containing the names of the owners or reputed owners and lessees or reputed lessees and of the occupiers of the said lands were duly deposited with the clerks of the peace for the counties of London and Kent and those plans sections and book of reference are in this Act respectively referred to as the deposited plans sections and book of reference :

And whereas it is expedient that further powers as contained in this Act should be conferred upon the Council in respect of their electric lighting undertaking: A.D. 1905.

And whereas it is expedient that the Council should be authorised to establish and carry on a depôt for the preparation and sale of sterilised milk and humanised milk as provided by this Act:

And whereas estimates have been prepared by the Council of the amount which they will require to expend on capital account for the purposes of this Act and such estimates are as follows:—

	£
For the widening of Wickham Lane	2,250
For the purchase of lands for generating station &c.	15,000
For the establishment and equipment of a depôt for the preparation and sale of milk	500

And whereas the several works and purposes included in such estimates are permanent works and purposes and it is expedient that the cost thereof should be spread over a term of years:

And whereas an absolute majority of the whole number of the Council at a meeting held on the thirteenth day of December one thousand nine hundred and four after ten clear days' notice by public advertisement of such meeting and of the purpose thereof in the Woolwich Gazette a local newspaper published and circulating in the borough such notice being in addition to the ordinary notices required for summoning such meeting resolved that the expense in relation to promoting the Bill for this Act should be charged on the general rate levied and collected in the borough:

And whereas the said resolutions were published twice in the Woolwich Gazette and have received the approval of the Local Government Board:

And whereas the propriety of the promotion of the Bill for this Act was confirmed by an absolute majority of the whole number of the Council at a further special meeting held in pursuance of a similar notice on the first day of February one thousand nine hundred and five being not less than fourteen days after the deposit of the Bill in Parliament:

A.D. 1905. — And whereas in relation to the promotion of the Bill for this Act the requirements contained in the First Schedule to the Borough Funds Act 1903 have been complied with:

And whereas the objects aforesaid cannot be effected without the authority of Parliament:
