

CHAPTER lvii.

An Act to amend and consolidate the enactments relating to the abstraction of water from the River Thames by the Metropolitan Water Board and the payments made by that board to the Conservators of the River Thames and for other purposes. A.D. 1911.
[18th August 1911.]

WHEREAS the Conservators of the River Thames (hereinafter referred to as "the Conservators") are by virtue of the Thames Conservancy Act 1894 as amended by the Port of London Act 1908 and the Thames Conservancy (Appointments and Tolls) Provisional Order Act 1910 the authority charged with the conservancy of the River Thames from Cricklade in the county of Wilts to an imaginary straight line drawn from high-water mark on the bank of the said river at the boundary line between the parishes of Teddington and Twickenham in the county of Middlesex to high-water mark on the Surrey bank of the said river immediately opposite the first-mentioned point:

And whereas by the said Thames Conservancy Act 1894 certain powers and duties with respect to the conservancy and preservation and regulation of the said river and the preservation and maintenance of the flow and purity of the said river and its tributaries were conferred and imposed upon the Conservators and in connection with the exercise by the Conservators of their powers and duties aforesaid large sums of money have been expended by the Conservators by landowners and by local authorities of districts situate on or near the said river and its tributaries:

And whereas the Metropolitan Water Board (hereinafter referred to as "the board") are charged with the duty of

A.D. 1911. supplying water for all purposes within an area which comprises the whole of the county of London and parts of other counties :

And whereas under various enactments and agreements the board are authorised to take water from the said river and the board make certain payments to the funds of the Conservators :

And whereas the revenue of the Conservators is insufficient to defray the large and increasing expenditure which the Conservators must incur for the purposes aforesaid :

And whereas it has been agreed between the board and the Conservators that subject to the provisions contained in this Act the enactments and agreements regulating the abstraction of water by the board from the said river should be amended and consolidated as hereinafter provided and that the payments by the board to the Conservators should be increased and it is expedient that such provisions for giving effect to the said agreement as are hereinafter contained should be enacted :

And whereas the objects of this Act cannot be attained without the authority of Parliament :

May it therefore please Your Majesty that it may be enacted and be it enacted by the King's most Excellent Majesty by and with the advice and consent of the Lords Spiritual and Temporal and Commons in this present Parliament assembled and by the authority of the same as follows (that is to say) :—

Short title.

1. This Act may be cited as the Thames Conservancy Act 1911.

Interpretation.

2. In this Act the following words and expressions have the meanings hereby assigned to them respectively unless there be something in the subject or context repugnant to such construction namely :—

“The Conservators” means the Conservators of the River Thames ;

“The River Thames” means that part of the River Thames and its tributaries in respect of which any rights powers and duties are vested in the Conservators ;

“The board” means the Metropolitan Water Board ;

“Natural flow” means the flow over any weir as it would be but for the abstraction of water by the board ;

“Actual flow” means the flow over any weir as the same is or might be gauged by the Conservators; A.D. 1911.

“Normal level” means with respect to any reach the level of the head-water mark as fixed for the time being for that reach under section 75 of the Thames Conservancy Act 1894;

“Day” means a day of twenty-four hours calculated from midnight to midnight;

“The commencement of this Act” means the first day of September one thousand nine hundred and eleven.

3.—(1) As from the first day of January one thousand nine hundred and twelve the board shall in each of the next succeeding eight years pay to the Conservators the annual sum of forty thousand pounds by equal quarterly payments on the twenty-fifth day of March the twenty-fourth day of June the twenty-ninth day of September and the twenty-fifth day of December in every year. Payments by water board.

(2) As from the first day of January one thousand nine hundred and twenty the board shall in each of the next succeeding years to and including the year one thousand nine hundred and forty-one and thereafter so long as the daily average quantity of water from the River Thames taken diverted or impounded by the board shall not exceed three hundred million gallons pay to the Conservators the annual sum of forty-five thousand pounds by equal quarterly payments as aforesaid.

(3) The aggregate sum to be paid by the board to the Conservators in lieu of all moneys which under the enactments and agreements by this Act repealed and cancelled are or would be payable in respect of each of the years ending on the thirty-first day of December one thousand nine hundred and ten and one thousand nine hundred and eleven respectively shall be thirty-three thousand four hundred and two pounds three shillings and ninepence and any portion of such sums which shall not have been paid prior to the thirty-first day of December one thousand nine hundred and eleven shall be paid by the board to the Conservators on that date.

(4) All moneys received by the Conservators from the board as hereinbefore provided shall be paid into the upper navigation fund.

(5) There shall be chargeable upon this Act a stamp duty of the same amount as would be chargeable upon an instrument

A.D. 1911. (as defined by the Stamp Act 1891) making provision as in this Act made for the payment by the board to the Conservators of the sums in this section mentioned.

(6) As regards any duty so chargeable the Conservators shall within six months after the passing of this Act produce to the Commissioners of Inland Revenue a King's Printer's copy of this Act duly stamped with the duty payable as aforesaid.

(7) On failure to comply with the provisions of this section so far as they relate to the payment of duty the Conservators shall be liable to pay the duty with interest thereon at five per centum per annum from the period hereinbefore fixed for production until payment and such duty and interest shall be recoverable as a debt due to His Majesty.

Power to
abstract
water.

4. Subject as hereinafter provided it shall be lawful for the board as from the commencement of this Act by means of all or any one or more of the intakes which they may for the time being lawfully use to take divert and impound in any one day any quantity of water from the River Thames not exceeding twelve hundred million gallons Provided nevertheless that such water shall only be taken diverted or impounded subject to the conditions following:—

(1) The daily average quantity of water so taken diverted or impounded during any calendar year shall not exceed three hundred million gallons Provided that notwithstanding anything hereinbefore contained the daily average quantity of water to be taken diverted or impounded by the board during any calendar year shall not exceed two hundred and thirty million gallons unless or until the board shall have obtained power to construct a storage reservoir or storage reservoirs in addition to any such reservoirs which may by any Act passed during the present session be authorised to be constructed by the board:

(2) The board shall not take divert or impound water from the River Thames above Penton Hook Weir at any time when the actual flow of water over Penton Hook Weir is at a less rate than two hundred and eighty-five million gallons per day or reduce the actual flow of water over Penton Hook Weir to a less quantity than two hundred and eighty-five million gallons in any one day:

- (3) The board may in any one day on which the natural flow of water over Penton Hook Weir is at a rate exceeding two hundred and eighty-five million gallons per day but not exceeding three hundred and eighty-five million gallons per day take divert and impound from the River Thames above Penton Hook Weir all water flowing in excess of the rate of two hundred and eighty-five million gallons per day and no more:
- (4) The board may in any one day on which the natural flow of water over Penton Hook Weir is at a rate exceeding three hundred and eighty-five million gallons per day but not exceeding eight hundred and fifteen million gallons per day take divert and impound from the River Thames above Penton Hook Weir in addition to the one hundred million gallons authorised by subsection (3) hereof one half of the water flowing in excess of the rate of three hundred and eighty-five million gallons per day and no more:
- (5) The board may in any one day on which the natural flow of water over Penton Hook Weir is at a rate exceeding eight hundred and fifteen million gallons per day take divert and impound from the River Thames above Penton Hook Weir in addition to the one hundred million gallons and in addition also to the two hundred and fifteen million gallons authorised by subsections (3) and (4) hereof respectively all water flowing in excess of the rate of eight hundred and fifteen million gallons per day and no more:
- (6) The board shall not take divert or impound water from the River Thames at any time when the actual flow of water over Teddington Weir is at a less rate than one hundred and seventy million gallons per day or reduce the actual flow of water over Teddington Weir to a less quantity than one hundred and seventy million gallons in any one day:
- (7) Notwithstanding anything in this section contained in the event of the board being authorised by any Act of Parliament passed during the present or any future session of Parliament to construct an intake between Penton Hook Weir and Shepperton Weir the board shall not take divert or impound water from the River Thames by means of such intake at

A.D. 1911.

any time when the actual flow of water immediately below such intake is at a less rate than one hundred and fifty million gallons per day such rate of flow to be ascertained by deducting the quantity of water taken diverted or impounded by means of such intake from the quantity of water actually flowing over Penton Hook Weir:

- (8) The board shall not take divert or impound water from the River Thames in any reach so as to reduce the normal level of water in that reach.

Special provision pending completion of additional storage.

5.—(1) Notwithstanding the restrictions contained in subsection (6) of the last preceding section the board may until they shall have completed ready for use a reservoir or reservoirs having a storage capacity of one thousand million gallons in addition to any reservoirs they now have or are in course of constructing or until the expiration of seven years from the passing of this Act (whichever shall first happen) take divert or impound from the River Thames by means of all or any one or more of the intakes below Penton Hook Weir which they may for the time being lawfully use any quantity of water not exceeding one hundred and thirty million gallons in any one day free from the said restrictions as regards the flow of water provided by the said subsection Provided that on any day on which the board avail themselves of the provisions of this section the total quantity of water abstracted by the board from the River Thames shall not exceed one hundred and thirty million gallons.

(2) The Local Government Board may on the application of the board by order declare that a longer period than such seven years shall be substituted for the said period of seven years and such longer period shall be substituted accordingly.

(3) So long as the board are entitled under the provisions of this section to impound water from the River Thames to the extent of one hundred and thirty million gallons free from the restrictions referred to in this section subsection (6) of the section of this Act of which the marginal note is "Power to abstract water" shall as regards any water taken diverted or impounded in excess of the quantity of one hundred and thirty million gallons be read and have effect as if the words "two hundred million gallons" were substituted for the words "one hundred and seventy million gallons."

6.—(1) The board may take gravel water at any time A.D. 1911.
when the actual flow of water over Teddington Weir amounts ^{Gravel}
to or exceeds the rate of one hundred and seventy million ^{water.}
gallons per day but not at any time when such flow is at a
less rate than as aforesaid or so as to reduce such flow to
a less quantity than one hundred and seventy million gallons
in any one day.

(2) The water to be taken by the board under this section shall not for the purposes of this Act be deemed to be part of the water authorised to be taken diverted or impounded under the section of this Act of which the marginal note is "Power to abstract water" and no payment shall be made by the board to the Conservators in respect of gravel water.

(3) The board shall provide such appliances or adopt such means as may be approved by the Conservators for measuring or otherwise ascertaining the quantity of gravel water taken by the board and shall in every week make to the Conservators a correct return in writing of the total quantity of gravel water taken by them in each day in the week ending at midnight on the Saturday then last past.

(4) The provisions of subsections (3) and (4) of the section of this Act of which the marginal note is "Ascertaining quantities of water taken from Thames" shall apply with the necessary modifications with respect to the provisions of the last preceding subsection of this section.

(5) In this section the expression "gravel water" means water obtained by means of works or apparatus lawfully constructed in or upon any lands works or property for the time being of the board situate within a distance of one mile from any part of the River Thames from the beds or strata of gravel underlying or surrounding such lands works or property.

(6) Nothing in this section shall prejudice or diminish the right of the board as existing immediately before the passing of this Act to take water from the beds or strata of gravel underlying or surrounding any lands works or property for the time being of the board situate at a greater distance than one mile from the River Thames.

7. Notwithstanding anything contained in the section of this Act of which the marginal note is "Power to abstract ^{Emergency}
water" the board may in cases of emergency and with the ^{water.}

A.D. 1911. sanction in writing of the Local Government Board by means of all or any one or more of the intakes which they may for the time being lawfully use take divert and impound water from the River Thames (a) notwithstanding that the actual flow of water over Teddington Weir is at a less rate than one hundred and seventy million gallons per day or (b) so as to reduce such actual flow to a less quantity than one hundred and seventy million gallons in any one day Provided that nothing in this section shall empower the Local Government Board to sanction the taking diverting or impounding by the board of water from the River Thames at any time when the actual flow of water over Teddington Weir is at a less rate than one hundred and forty million gallons or so as to reduce such actual flow to a less quantity than one hundred and forty million gallons in any one day.

Use of water
unrestricted.

8. Notwithstanding the restrictions (if any) contained in or imposed by any Act of Parliament or agreement the board may use all water taken diverted or impounded by them under the powers of this Act for the supply of any portion or portions of their area of supply or for any other purpose for which they are authorised to use or supply water.

Board to
cease or re-
duce pump-
ing on notice.

9. Subject to the provisions of the sections of this Act whereof the marginal notes are "Special provision pending completion of additional storage" and "Emergency water" on notice from the Conservators that the actual flow of water over Penton Hook Weir or Teddington Weir is at a rate not exceeding the minimum quantities prescribed by the section of this Act whereof the marginal note is "Power to abstract water" the board shall immediately stop taking diverting or impounding water from the River Thames above such weir and on notice from the Conservators that the actual flow of water over Penton Hook Weir does not exceed five hundred million gallons per day shall so adjust or reduce the rate at which they are taking diverting or impounding water above that weir that the quantity taken diverted or impounded on any day on which any such notice is given shall not exceed the quantity which the board are by this Act authorised to take divert or impound Any such notice may be given by telephone or telegraph by the engineer of the Conservators or by their secretary.

Alteration
of intakes.

10.—(1) In the event of the board desiring at any time to alter the position and number of their intakes the consent of the

Conservators if by law required may be withheld on the ground that such alteration would prejudice or interfere with the navigation of the River Thames or for other good cause but such consent shall not be unreasonably withheld or be withheld on the ground that any additional payment or compensation should be made by the board in consideration of such alteration. A.D. 1911.

(2) Any question as to whether the consent of the Conservators has been unreasonably withheld shall be referred to arbitration.

11.—(1) The water to be taken diverted or impounded by the board from the River Thames shall be measured or otherwise ascertained at the board's several intakes or at such other convenient places as may be agreed between the board and the Conservators and for that purpose the board shall (unless such appliances as hereinafter mentioned have already been provided and approved by the Conservators) provide at such intakes or other places suitable appliances to be approved by the Conservators for measuring or otherwise ascertaining the quantity of water taken diverted or impounded by the board by means of such intake or intakes and the board shall maintain in good working order all appliances so provided. Ascertaining quantities of water taken from Thames.

(2) The board shall in every week make to the Conservators a correct return in writing of the total quantity of water taken diverted or impounded by them from the River Thames in each day in the week ending at midnight on the Saturday then last past and such return shall show the quantity taken through each of the board's intakes.

(3) The engineer of the Conservators and any other person from time to time authorised in writing by him or by the secretary of the Conservators shall at all reasonable times have access to all or any part of the premises of the board for the purpose of inspecting and checking the accuracy of all or any such appliances as aforesaid and of checking the returns made by the board and the board shall give to such engineer or other person all necessary facilities for inspecting and checking as aforesaid.

(4) In case any dispute shall arise between the Conservators and the board with reference to the suitability accuracy or user of the appliances to be provided by the board as aforesaid or to the correctness of any return by this section

A.D. 1911. required to be made by the board the matter shall be referred to arbitration.

For ascer-
taining flow
of water over
weirs.

12.—(1) The flow of water over any weir shall for the purposes of this Act include all water passing through any lock adjacent to or connected with such weir and shall be ascertained by such suitable appliances as shall be provided for that purpose by the Conservators at any weir or weirs and at every such lock as aforesaid and such appliances shall be under the sole control of the Conservators and the certificate of the engineer or other officer of the Conservators of the quantity of water so ascertained shall be evidence of the flow of water over such weir or weirs and the Conservators shall maintain in good working order all appliances so provided.

(2) The Conservators shall in every month make to the board a correct return in writing stating the actual flow over each weir gauged for the time being by the Conservators during each day in the month then last past.

(3) The engineer of the board and any person from time to time thereunto authorised in writing by him or by the clerk of the board shall at all reasonable times have access to all or any part of the premises of the Conservators for the purpose of inspecting and checking the accuracy of all or any such appliances as aforesaid and of checking records kept by the Conservators of the flow of water over any weir and the Conservators shall give such engineer or other person all necessary facilities for the purpose aforesaid.

(4) In case any dispute shall arise between the board and the Conservators with reference to the suitability or user of any appliances provided by the Conservators as aforesaid or as to the accuracy of any such certificate or return as aforesaid the matter shall be referred to arbitration.

As to recon-
struction of
weirs.

13.—(1) Not less than one month before commencing the reconstruction or adaptation as a gauge weir of any weir next above or below any of the board's existing or future intakes which may at any time require to be so reconstructed or adapted or the construction of any works in connection with any such reconstruction or adaptation the Conservators shall submit to the board for their reasonable approval plans sections and specifications giving full particulars of the proposed reconstruction or adaptation and of any proposed works in connection therewith and a detailed estimate or detailed estimates of the cost of

executing such reconstruction adaptation and works and if within one month after the receipt of any such plans sections specifications and estimates the board shall by notice in writing addressed to the Conservators intimate their disapproval thereof or make any requirement with respect thereto with which the Conservators shall be unwilling to comply a dispute shall be deemed to have arisen Provided that if the board shall not give any such notice to the Conservators as aforesaid within such last-mentioned period of one month they shall be deemed to have approved of such plans sections and specifications. A.D. 1911.

(2) Any such reconstruction or adaptation and any works in connection therewith shall be executed in strict accordance with the plans sections specifications and estimates as approved by the board or settled by arbitration and under the superintendence (if after sufficient notice in writing from the Conservators he shall choose to attend) and to the reasonable satisfaction of the engineer of the board.

(3) Upon demand by the Conservators at any time after the completion in accordance with this section of any such reconstruction or adaptation and of any works in connection therewith the board shall pay to the Conservators one half of the cost of executing such reconstruction or adaptation and works as approved by the board or settled by arbitration as the case may be.

(4) In case any dispute shall arise between the board or their engineer and the Conservators as to the necessity for any such reconstruction or adaptation or otherwise under this section the same shall be referred to arbitration.

14. It shall be the duty of the Conservators to maintain as far as reasonably practicable at the normal level the water in any reach in which any intake of the board is situate but the water in such reach may be reduced below such level for the purpose of dealing with floods or for other reasonable purpose Any dispute as to the reasonableness of any such purpose shall be referred to arbitration. Maintenance of head water in reaches.

15. The quarterly payments to be made as aforesaid by the board shall be made without deduction and all sums so paid shall in the hands of the Conservators be free from all Parliamentary parochial and other general and local taxes rates and assessments whatever and shall be charged on the water fund of the board in like manner as the payments made by the board under Payments to be without deduction and charged on water fund.

A.D. 1911. section 292 of the Thames Conservancy Act 1894 were immediately before the passing of this Act charged by virtue of section 293 of that Act and section 4 of the Metropolis Water Act 1902.

Arbitration. **16.** Where any matter is pursuant to the provisions of this Act to be referred to arbitration it shall failing agreement be referred to a single arbitrator appointed by the President of the Institution of Civil Engineers.

For protection of Woking Water and Gas Company. **17.**—(1) Subsections (4) (5) and (7) of section 8 of the Woking Water and Gas Act 1899 are hereby repealed and such section shall be read and have effect as if the following subsections had been inserted therein in lieu of the provisions of subsections (4) and (5):—

“(4) Provided that the Company shall not take divert or impound from the River Thames any daily excess quantity unless the water is flowing over Teddington Weir at a rate exceeding one hundred and seventy million gallons per day of twenty-four hours calculated as aforesaid”:

“(5) Provided also that on notice from the Conservators that the water is not flowing over Teddington Weir at a rate exceeding one hundred and seventy million gallons per day the Company shall immediately cease taking diverting or impounding water from the River Thames in excess of one million gallons in any one day calculated as aforesaid or so reduce the rate at which they are taking diverting or impounding water that the water taken diverted or impounded on any day calculated as aforesaid on which any such notice has been given shall not exceed one million gallons Any such notice may be given by telephone or telegraph.”

(2) Section 9 of the Woking Water and Gas Act 1899 shall be read and have effect as if the words “Teddington Weir” were substituted therein for the words “Molesey Weir.”

Saving for South West Suburban Water Company. **18.** Nothing contained in this Act shall prejudice or in any way affect the right of the South West Suburban Water Company to take water from the River Thames in pursuance of section 4 of the South West Suburban Water Act 1908.

19. For the protection of the county councils of the administrative counties of Middlesex and Surrey (hereinafter called "the councils") the following provision shall unless otherwise agreed apply and have effect (that is to say):—

A.D. 1911.
For protec-
tion of Mid-
dlesex and
Surrey
County
Councils.

The clerks of the councils or either of them or any person authorised in writing by such clerks or either of them shall have like access to the premises of the Conservators as that given to the engineer of the board by subsection (3) of the section of this Act the marginal note of which is "For ascertaining flow of water over weirs."

20. For the protection of the Port of London Authority the following provisions shall unless otherwise agreed have effect (that is to say):—

For protec-
tion of Port
of London
Authority.

(1) As from the day on which the provisions of the section of this Act whereof the marginal note is "Special provision pending completion of additional storage" cease to have effect the Conservators shall during every day when the actual flow of water over Teddington Weir is at a less rate than two hundred million gallons per day so arrange that not less than fifty million gallons of water shall be discharged over Teddington Weir during a period of six consecutive hours on each tide such period to be fixed in relation to the time of low water at Richmond by agreement between the Port of London Authority and the Conservators or in case of difference by an arbitrator to be appointed on the application of either party by the President of the Institution of Civil Engineers Provided that this provision shall not apply on any day when the natural flow over Teddington Weir is at a less rate than one hundred and seventy million gallons per day :

(2) The engineer of the Port of London Authority or any other person from time to time thereunto authorised by him in writing shall at all reasonable times have access to the said appliances of the Conservators for gauging the daily flow of the river over Teddington Weir for the purpose of inspecting and ascertaining the same and the Conservators shall give such engineer or other person all necessary facilities for the purpose aforesaid.

A.D. 1911.

Repeal of
enactments
and cancel-
lation of
agreements.

21.—(1) The enactments mentioned in the first part of the schedule hereto are hereby respectively repealed as from the commencement of this Act so far as they regulate the taking of water by the board or the payments to be made by the board.

(2) The agreements mentioned in the second part of the schedule hereto are hereby cancelled as from the commencement of this Act.

Costs of Act.

22. The costs charges and expenses of and incidental to preparing and obtaining this Act shall be paid by the Conservators out of any moneys (including borrowed moneys) for the time being in their hands.

The SCHEDULE referred to in the foregoing Act.

A.D. 1911.

PART I.

ENACTMENTS REGULATING THE TAKING OF WATER BY THE METROPOLITAN
WATER BOARD AND THE PAYMENTS MADE TO THE CONSERVATORS.

Regnal Year and Chapter of Act.	Title or Short Title of Act and Section to be repealed.
15 & 16 Vict. c. 156.	Chelsea Waterworks Act 1852. Sec. 43 (Power to take water from the River Thames.) Sec. 67 (Company may continue to draw water from the River Thames.)
38 & 39 Vict. c. 108.	Chelsea Waterworks Act 1875. Sec. 25 (Power to take water from Thames &c.) Sec. 26 (Saving rights of Conservators under an agreement dated 17th June 1852.)
30 & 31 Vict. c. 148.	East London Waterworks (Thames Supply) Act 1867. Sec. 21 (Power to take water from Thames &c.) Sec. 22 (Company may erect flood gauge.) Sec. 23 (Payments to be made by company to Conservators of River Thames.) Sec. 24 (Contributions of company to be first charge on their receipts after existing debts &c.) Sec. 25 (Payments of company to be without deduction and free from taxes &c.) Sec. 29 (Conservators to have access to the works of the company.) Sec. 30 (Provision for estimating the supply of water to the company.)
63 & 64 Vict. c. 212.	East London Waterworks Act 1900. Sec. 26 (Increase of company's power to take water from River Thames with the sanction of the Conservators.) Sec. 27 (As to ascertaining quantities of water taken from Thames and delivered to consumers.) Sec. 28 (For ascertaining the flow of water over Molesey Weir.) Sec. 29 (Payment to Conservators in respect of Molesey Weir.) Sec. 30 (Payments to Conservators in respect of excess water.) Sec. 31 (Penalty as to taking excess water.) Sec. 34 (Powers to be exercised only with sanction of Local Government Board and for such periods as that Board prescribe.)

A.D. 1911.

Regnal Year and Chapter of Act.	Title or Short Title of Act and Section to be repealed.
5 & 6 Will. IV. c. 95.	An Act to amend and extend the powers vested in the Grand Junction Waterworks Company and for other purposes relating thereto. Sec. 3 (Company empowered to obtain water from a higher part of the river and to conduct the same to reservoirs for the supplying other places and to construct works &c.)
15 & 16 Vict. c. 157.	Grand Junction Waterworks Act 1852. Sec. 36 (Power to take water from the River Thames.)
11 Vict. c. 7. -	Lambeth Water Act 1848. Sec. 31 (Power to take water from the River Thames at Long Ditton.) Sec. 41 (After the completion of works no water is to be taken from the Thames except at Long Ditton.)
34 & 35 Vict. c. 83.	Lambeth Waterworks Act 1871. Sec. 15 (Power to take water from Thames in West Molesey.) Sec. 24 (Saving agreement of 24th June 1851.)
63 & 64 Vict. c. 141.	Lambeth Waterworks Act 1900. Sec. 20 (Supply of water to new works.) Sec. 21 (Provisions as to gravel water.) Sec. 22 (Power to company to take water from River Thames in excess of quantity now authorised.) Sec. 23 (Payments to be made to Conservators.) Sec. 24 (Payment for water for filling reservoirs.) Sec. 25 (Moneys paid to Conservators to be carried to Upper Navigation Fund.) Sec. 26 (For ascertaining the flow of water over Molesey Weir.) Sec. 28 (Penalties for taking water contrary to notice or in larger quantity than authorised.)
15 & 16 Vict. c. 158.	Southwark and Vauxhall Water Act 1852. Sec. 9 (Company to continue entitled to power under other Acts) so far as relates to taking of water from the River Thames. Sec. 42 (Power to take water from the River Thames.) Sec. 86 (Certain sections of recited Acts to remain in force.)
49 & 50 Vict. c. 85.	Southwark and Vauxhall Water Act 1886. Sec. 12 (For the protection of the Conservators of the River Thames) subsection 6.
61 & 62 Vict. c. 115.	Southwark and Vauxhall Water Act 1898. Sec. 15 (Increase of company's power to take water from River Thames.) Sec. 16 (Limit of amount of water which company may deliver to consumers.) Sec. 17 (As to ascertaining quantities of water taken from River Thames and delivered to consumers.) Sec. 18 (For ascertaining flow of water over Penton Hook Weir.)

A.D. 1911.

Regnal Year and Chapter of Act.	Title or Short Title of Act and Section to be repealed.
61 & 62 Vict. c. 115.	Southwark and Vauxhall Water Act 1898. Sec. 19 (Water taken not to be supplied to other companies.) Sec. 21 (Payments to Conservators.)
46 Geo. III. c. 119.	West Middlesex Waterworks Act 1806. Secs. 73 & 74 (Company empowered to cut into the Thames and take water therefrom.)
15 & 16 Vict. c. 159.	West Middlesex Waterworks Act 1852. Sec. 21 (Power to take water from the River Thames.)
29 Vict. c. 6.	West Middlesex Waterworks Act 1866. Sec. 8 (Limit of water to be taken from Thames.)
62 & 63 Vict. c. 91.	West Middlesex Waterworks Act 1899. Sec. 21 (Increase of company's power to take water from River Thames.) Sec. 22 (As to ascertaining quantities of water taken from Thames and delivered to consumers.) Sec. 23 (For ascertaining the flow of water over Molesey Weir.) Sec. 25 (Penalty as to taking excess water.) Sec. 27 (Payments to Conservators.)
59 & 60 Vict. c. 241.	Staines Reservoirs &c. Act 1896. Sec. 55 (Power to take waters of River Thames &c.) Sec. 58 (As to ascertaining quantities of water taken from Thames.) Sec. 59 (Water taken not to be supplied to other companies.) Sec. 61 (Payments to Conservators by joint committee.) Sec. 62 (For ascertaining the flow of water at Penton Hook.)
57 & 58 Vict. c. 187.	Thames Conservancy Act 1894. Sec. 292 (Contributions by companies) except so far as relates to the West Surrey Water Company and the South West Suburban Water Company. Sec. 293 (Contributions of companies to be first charge on their receipts) except as aforesaid. Sec. 294 (Payments of companies to be without deduction and free from taxes &c.) except as aforesaid. Sec. 295 (Power of intersale by metropolitan water companies.) Sec. 296 (Restriction on quantity of water which may be taken by companies) except as aforesaid. Sec. 297 (As to ascertaining quantities of water taken from Thames) except as aforesaid.

A.D. 1911.

PART II.

AGREEMENTS RELATING TO THE TAKING OF WATER BY THE METROPOLITAN
WATER BOARD AND THE PAYMENTS MADE TO THE CONSERVATORS.

Dates of Agreements.	Parties to Agreements.
