## ABERDEEN HARBOUR

*Provisional Order to make provision with regard to the rates leviable by the Aberdeen Harbour Commissioners to authorise the said Commissioners to borrow further moneys and for other purposes.*

WHEREAS by the Aberdeen Harbour Act 1895 (hereinafter referred to as "the Act of 1895") the Aberdeen Harbour Commissioners (hereinafter referred to as "the Commissioners") were incorporated and the Acts then in force relating to the harbour of Aberdeen (hereinafter referred to as "the former Acts") were repealed consolidated and amended : 58 & 59 Vict.  
c. cxxxvi.

And whereas the powers of the Commissioners of levying rates were for the most part conferred on the Commissioners by the Act of 1895 as amended by the Aberdeen Harbour Order 1909 and by other Orders :

And whereas by the Aberdeen Harbour (Rates) Order 1933 further powers of levying rates were conferred on the Commissioners :

And whereas owing to circumstances arising out of the late war the rates authorised to be levied by the Commissioners as aforesaid proved insufficient to enable them to maintain their undertaking in a state of efficiency :

And whereas on the twenty-eighth day of March one thousand nine hundred and forty-four the Minister of Transport by virtue of powers vested in him by regulation 56 of the Defence (General) Regulations 1939 made an Order intituled "the Aberdeen Port and Harbour (Increase of Charges) Order 1944" (hereinafter referred to as "the Order of 1944") whereby the Commissioners were authorised to increase the rates specified in Schedules A B and C to the Aberdeen Harbour (Rates) Order 1933 :

And whereas the Order of 1944 is due to expire on the tenth day of December one thousand nine hundred and fifty and to enable the Commissioners to maintain the harbour in a state of efficiency it is expedient that the provisions contained in this Order with respect to the rates leviable by the Commissioners should be enacted :

And whereas by the Act of 1895 the Commissioners were authorised to borrow for the purposes of their undertaking any sums of money which with the sums previously borrowed in virtue of the former Acts and remaining due at the commencement of the Act of 1895 should not exceed the sum of five hundred and thirty-five thousand pounds :

And whereas from time to time the Commissioners were authorised to borrow further sums of money amounting to five hundred thousand pounds :

And whereas by the Aberdeen Harbour Order 1924 the Commissioners were authorised to borrow a sum or sums not exceeding in the whole six hundred thousand pounds in addition to the sums previously authorised to be borrowed :

And whereas the unexhausted borrowing powers of the Commissioners amount to eighty-six thousand four hundred and fifty pounds or thereabouts :

And whereas the Commissioners were authorised by the Act of 1895 to effect improvements and to execute additional works for the benefit of the trade and shipping at the harbour :

And whereas the Commissioners have constructed and are in course of constructing certain of the said works for which a sum exceeding the unexhausted borrowing powers of the Commissioners will be required :

And whereas it is expedient to authorise the Commissioners to borrow further moneys for the purpose of completing the before-mentioned works and executing other works authorised by the Act of 1895 for the improvement of the harbour :

25 Geo. 5. &  
1 Edw. 8. c. 52.

And whereas the purposes aforesaid cannot be effected without an Order confirmed by Parliament under the provisions of the Private Legislation Procedure (Scotland) Act 1936 :

Now therefore in pursuance of the said last-mentioned Act the Secretary of State orders as follows :—

## IV. MISCELLANEOUS

For all vessels (other than herring and white fishing vessels) entering the harbour windbound or for safety or for orders or for repairs or (not being private pleasure yachts) with or for passengers only and not breaking bulk or taking in goods (stores or bunkers for their own use excepted) the following rates shall be paid (namely):—

Fourpence per register ton, if from any port or place in Great Britain Northern Ireland or the Republic of Ireland;

Sevenpence per register ton if from any other port or place:

Provided that no rates of any kind shall be chargeable in respect of such vessels coming within the limits of the port and harbour but not entering the harbour.

For vessels breaking bulk (except for repairs) or taking in goods (except stores or bunkers for their own use) full rates shall be paid and vessels breaking bulk to permit repairs to be effected shall re-load all the goods so landed otherwise they shall be liable in full rates.

For all vessels launched at the port half rates shall be paid on the first sailing thereafter outwards if in ballast only but if loading goods or carrying passengers full rates shall be paid. If on such first sailing any such vessel is loaded with chip stones only the vessel shall for the purposes of rates for vessels be held to be in ballast.

For all fishing vessels propelled by steam or other motive power and fishing regularly from the port remaining in the harbour the sum of two shillings and threepence per register ton if in the Victoria Dock and the sum of one shilling and twopence per register ton if in any other part of the harbour for each period of fourteen days or any period less than fourteen days during which such vessels remain in the harbour after the expiration of one month from the date of their arrival.

For all such vessels not fishing regularly from the port remaining in the harbour the sum of two shillings and threepence per register ton if in the Victoria Dock and the sum of one shilling and twopence per register ton if in any other part of the harbour for each period of fourteen days or any period less than fourteen days during which such vessels remain in the harbour after the expiration of fourteen days from the date of their arrival.

A vessel shall be held to be fishing regularly from the port when she has made not less than ten arrivals within the twelve months ending on the date of her latest arrival.

For all decked or open boats remaining in the harbour the sum of two shillings and tenpence if in the Victoria Dock and one shilling and sixpence if in the Albert Basin for each week or for any period less than a week during which such boats so remain in the harbour after the expiration of one week from the date of their arrival.

For all other vessels remaining in the harbour the sum of sixpence per register ton if in the Victoria Dock and fourpence per register ton if in any other part of the harbour for each month or for any period less than a month during which such vessels remain in the harbour after the expiration of one month from the date of their arrival.

The above rates for vessels and boats remaining in the harbour shall be payable in advance but shall not be chargeable for such vessels or boats while under repair on pontoons or slips.

In reckoning the number of voyages made within any year (except as regards fishing vessels) the year shall be deemed to run from the first day of October to the thirtieth day of September. If any vessel being a regular trader to the harbour is lost or sold during any such year any vessel substituted in the trade for the vessel so lost or sold shall in computing the number of voyages in that year be deemed to be the vessel for which it is so substituted. One sailing inwards and the next following sailing outwards shall constitute a voyage.

For vessels sailing from the harbour and put back by stress of weather or other cause without having accomplished the voyage additional rates shall not be charged on such return.

For the purpose of rating the net register of tonnage of fishing vessels and steam tugs shall not in any case be deemed to be less than eighteen per cent. of the gross register tonnage.

For all vessels not specially mentioned in this schedule or not having any net register tonnage there shall be charged on each occasion of entering the port and harbour the appropriate tonnage rate charged on the gross tonnage.

#### EXEMPTION

Rates leviable under this schedule shall not be charged on steam tugs plying by the authority or licence of the Commissioners while such steam tugs are employed only in towing vessels into or out of the harbour.
